### 2025 build year

Have you planned out your next fleet build?

---

### Upcoming changes

2025 will be an exciting year, with many vehicle changes. What does this mean for your Fleet?

---

### Billing Policy

What we can do to ensure supply issues don't interrupt your next build.

## 2025 Build Year

### Have you planned out your next fleet build? When should you contact your upfitter for planned builds?

We are extraordinarily busy this year due to the absolute avalanche of vehicles being delivered to fleets around Colorado and Wyoming. We are working diligently to catch everyone up for 2024-2025. Currently, the sales team is diligently trying to work past our backlog and get everyone quotes for the near future. On the install side, we are currently scheduling in the 2025 calendar year.

### When should you contact your upfitter for planned builds?

The long and short of it is: As soon as possible! When you are ordering vehicles, even if you don't know the application, please reach out to us to secure install placeholders, and we can start working through the details. We are accepting placeholder dates in our schedule to make sure your builds have a place in line. We just ask that you have confirmed quantities and approximate application IE: Patrol, Command, K9, etc.
